QUALITY, HEALTH, SAFETY AND ENVIRONMENT ABOVE ALL!

Over the years we have serviced a wide variety of clients, and dealt with a great number of scheduled and unscheduled repair, maintenance, heavy lift and (de)mobilisation jobs. When we promise to deliver, we get the job done. On time and within budget.

We are able to create new and better ways to serve our customers and enhance the quality, safety, health and environmental scope of our work. You can expect that drive to continue as we move forward.

BUSINESS SERVICES

The recent extension of our business services has proven successful and the company is working on additional business services to fuel growth. Rotterdam Offshore Group is now providing the following 10 business services.

1. De- and mobilization, maintenance
2. Conversions and yard repairs
3. Port and voyage repairs or maintenance
4. Heavy-lift and floating cranes
5. Supplier, sales/rental, and storage of equipment
6. Fabrication and construction work
7. High-end on-site mechanical services
8. Salvage and decommissioning
9. Manpower supply and crew change services
10. Warehousing, transport, storage and inventory control

1. DE- AND MOBILIZATION, MAINTENANCE

For offshore vessels such as PSV, OSV, Seismic-, Dredging-, Jack-Up Installation Vessels, (crane) barges and platforms.

Rotterdam Offshore Group delivers services for mobilisation and demobilisation work for the offshore industry throughout the world.

2. CONVERSIONS AND YARD REPAIRS

Our expertise ranges from collision repair involving hull steel work to complete engine overhaul and maintenance and repair work on generators, pumps, winches, hydraulic systems, cranes, hatches etc.

3. PORT AND VOYAGE REPAIRS OR MAINTENANCE

With full-service repair trucks, floating equipment and flying squads we have a wide range of capabilities performing work throughout the Rotterdam port area and beyond.

4. HEAVY-LIFT AND FLOATING CRANES

With an extensive experience we provide a range of cranes up to 1400T, such as lattice and telescopic crawler cranes, mobile port handling cranes and floating (marine) cranes for the offshore industry, ports and construction companies.

5. SUPPLIER, SALES/RENTAL, AND STORAGE OF EQUIPMENT

With over 14,000 square meters for storage, construction, and handling, we offer equipment used in offshore exploration such as cranes, winches, steel ramps etc for rent or purchase.

6. FABRICATION AND CONSTRUCTION WORK

ROG provides twenty-four (24) hour service and specializes in the design and fabrication of offshore constructions. We provide qualified and skilled personal for refurbishing, piping and structural fabrication. We also offer docking services to facilitate the offloading.

7. HIGH-END ON-SITE MECHANICAL SERVICES

Alignments, vibration and 3D measurements, 3D scanning and on site machining provide total solutions, which offer the best methods available in predictive maintenance programs and save you time and money.

8. SALVAGE AND DECOMMISSIONING

Salvage and decommissioning behold often large, complex and multi-disciplinary projects. Each project is unique and each offshore structure or ship has its own unique challenges. ROG provides the essential toolkit to ensure that salvage and decommissioning is delivered safely and within budget.

9. MANPOWER SUPPLY AND CREW CHANGE SERVICES

We cater to all your requirements of safety oriented and experienced personnel to support and serve in the global maritime and offshore industry. We understand and take into consideration the importance of time-factor and respond to your requirements promptly.

10. WAREHOUSING, TRANSPORT, STORAGE AND INVENTORY CONTROL

We can arrange a planned space for the storage and handling of equipment and materials. We also govern the information flow between sources of supply and beneficiaries.
